

# How to add Billing and Cost Management in IAM Admin Account

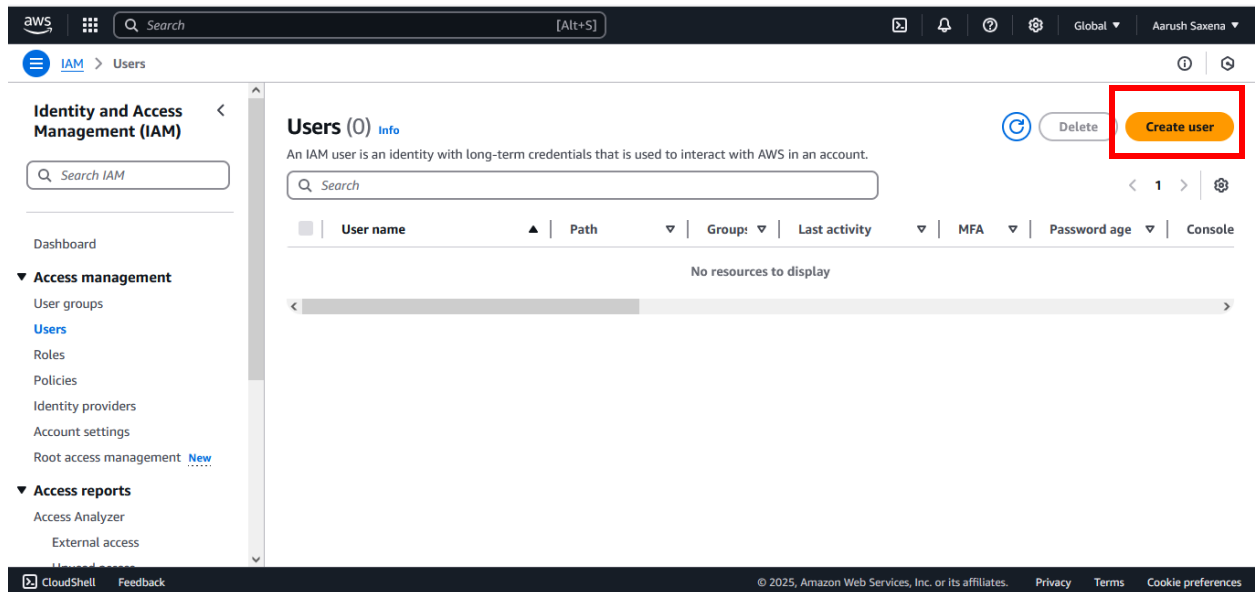

Step1: Log-in to your aws account and from the console search for IAM service, as shown in image given below. Or you can search it from the searchbar.

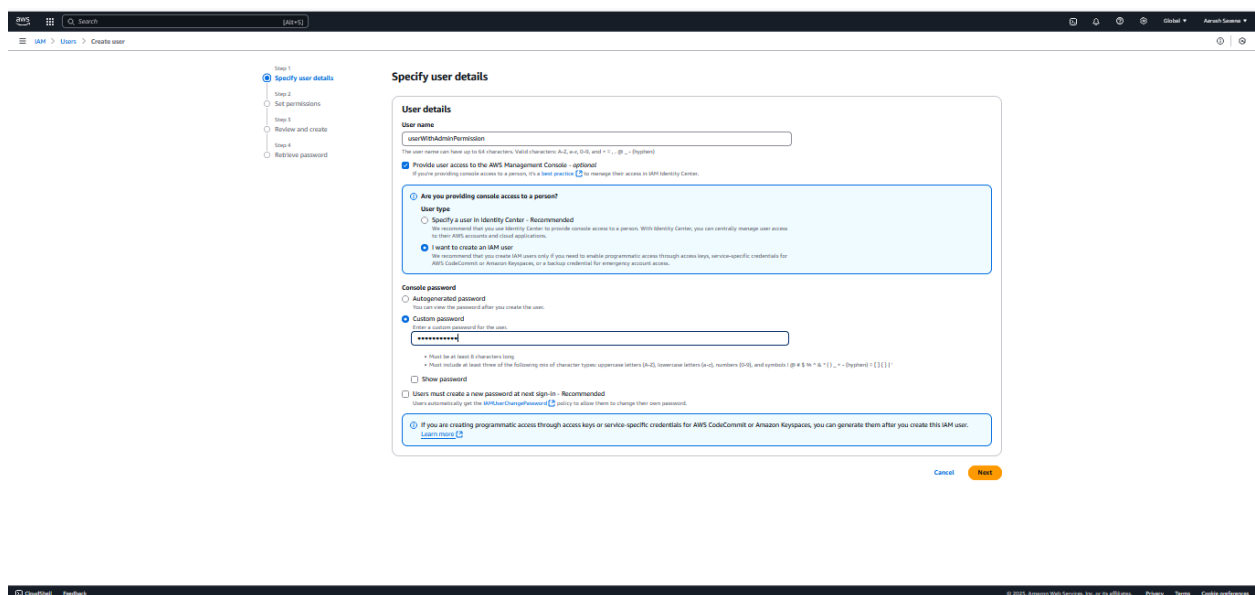

You will see IAM dashboard now click on users

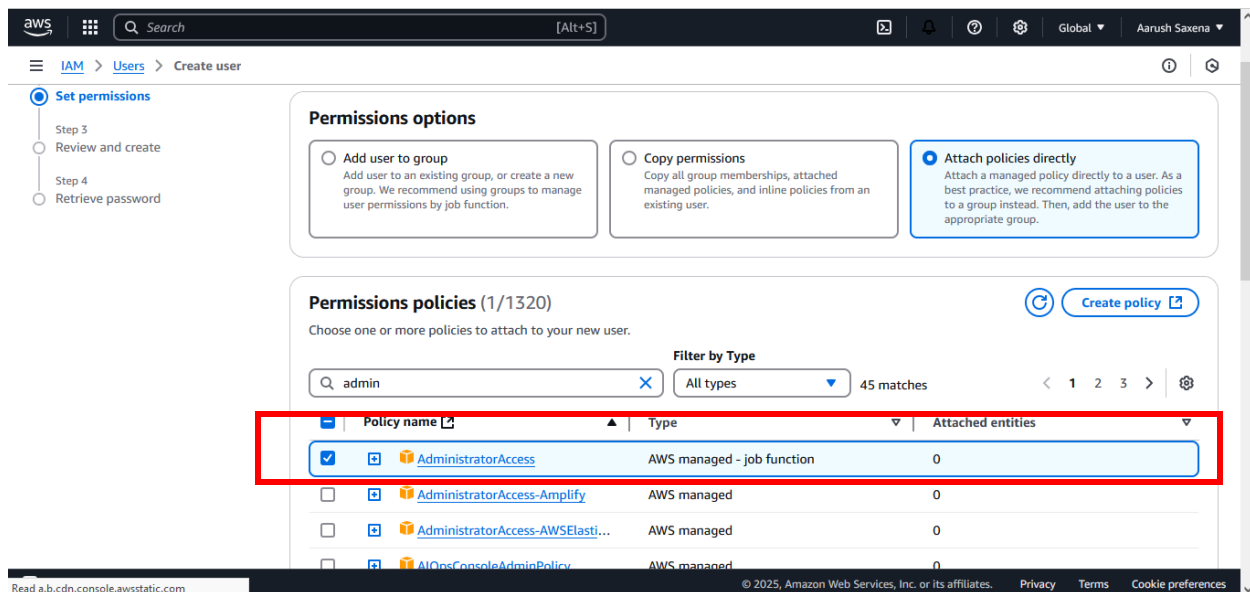

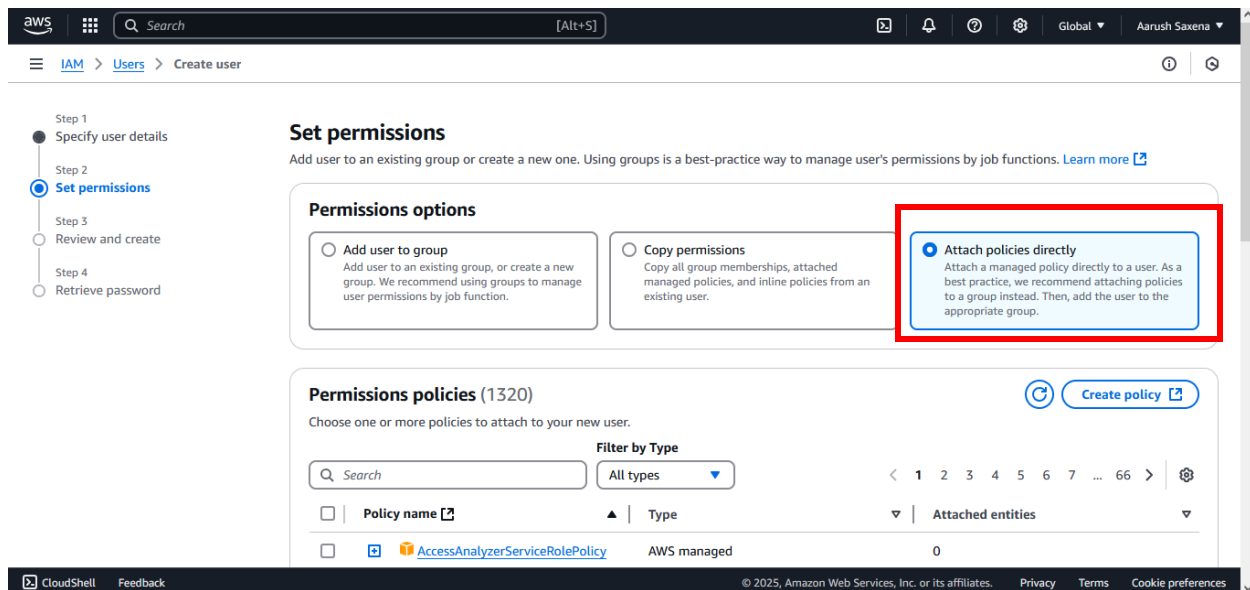

Window will appear like this now click on create user

Give name to your IAM user and set custom password if you want and uncheck the user must change password and click on next.

After that we are going to attach policies directly of admin users.

Click on create user. After that in IAM dashboard you can see your IAM user has been created.
